

Clinic Information in English

Johannesbad Fachklinik, Bad Füssing (Specialist Clinic)

The focus of our work is on man with his health and his striving for physical and mental well-being. That is why we consistently ensure quality of the highest level. The Johannesbad Specialist Clinic in Bad Füssing is one of the few clinics in Germany certified by 4 bodies: the German Society for Medical Rehabilitation, the Cooperation for Quality and Transparency in Healthcare, DIN ISO EN 9001:2000 and the Institute for Quality Management in Healthcare.

The Johannesbad Specialist Clinic also comprises the Johannesbad Thermal Springs, one of the largest spa water thermal springs in Europe covering 4,500 square metres of water surface, with 13 pools, 5 saunas and a Medical Health and Fitness Department with massage facilities and beauty applications.
